

HEALTH CARE REFORM ACTION ALERT

Congress is preparing to debate health care reform legislation on the House and Senate floors. Genuine health care reform should protect the life and dignity of all people from the moment of conception until natural death. The United States Conference of Catholic Bishops has concluded that all bills moving through Congress are seriously deficient on the issues of abortion and conscience, and do not provide adequate access to health care for immigrants and the poor. The bills will have to change, or the bishops have pledged to oppose them.

Our nation is at a crossroads. Policies adopted in health care reform will have an impact for good or ill for years to come. None of the bills retains longstanding current policies against abortion funding or abortion coverage mandates, and none fully protects conscience rights in health care.

Congressional leaders are presently attempting to put together final bills for floor consideration. Please consider contacting your Representative and Senators today and urge them to make these bills acceptable with the pro-life amendments noted below. Otherwise much needed health care reform will have to be opposed. Health care reform should be about saving lives, not destroying them.
